## B - GENERAL PROVISIONS OF HEALTH SERVICES.

Information regarding such services was fully set out in previous Reports. There are no changes to record.

### Child Life Protection

- |  |   |
|--|---|
| (a) Number of persons on register receiving children for reward at the end of year | 5 |
| (b) Number of children on the register   |   |
| (1) At the end of year   | 5 |
| (2) Who died during the year   | - |
| (3) On whom inquests were held during the year                                     | - |

The general standard of cleanliness in this Borough is high and the amount of infestation is minimal.

The methods adopted for promotion of hygiene are vigorous and prompt, this obviating contagion by contact.

The action is facilitated by reason of the fact that there is a close liaison between the Health Visitor acting for the Borough and the School Nurse working under the auspices of the County Council both resident under the Superintendent of the District Nursing Association. The latter is officially appointed as Infant Life Protection Visitor in the Borough.

Furthermore, the Medical Officer of Health acts in the capacity of School Medical Officer. Where extreme measures are necessary assistance is afforded by the Inspector of the N.S.P.C.C.

## C - SANITARY CIRCUMSTANCES.

### Water

A pure constant supply of water has been maintained during the year.

The following number of water samples were examined during the year:-

Bacteriological	12
Chemical	Nil

All were found to be highly satisfactory.

Chlorination of all sources of water continues according to the Ministry of Health requirements, but the minimum dosage is required in view of the clarity and purity of these virginal sources.
